

## I Remember

Julie Cruise

I remember your song  
And the way you sang it to me  
So many times in other forms  
On distant lands

I remember your smile  
And the way you sent it to me  
So many times through different air  
It lives inside my heart

It is a dream  
You and me  
It can't be real  
I never felt a wind  
So happy, so warm  
That sent seven little red birds up my spine  
Singing
