

# Until the End of the World

**Julie Cruise**

When all the land was dark  
And you appeared in light  
Then the darkness cried  
We danced above the earth  
Through the heaven above  
Sunlight, moonlight smiled  
Until the end of the world  
We touched beside the sky  
The sun threw golden rays  
Whispering our love  
Until the end of the world  
Your bright eyes fill my soul  
Your kiss a sacred dream  
The dream is one that lasts  
Until the end of the world
