

Fade Away

Juli

Which way to the fountain of my yout I wonder
Which way to the years I've let go by...
Fall like the leaf in the wind on the ocean
Trying to make it through the motion

Hold on to your memories of changes and forgiveness
Rewind the time of possibilities
As summertime is running out of patience
Winter sky defying all my choices

Take a look in my eyes and you will know the feeling
Inside I am wak but for the dawn I'm breathing
So breathe your life in my shades of grey
Or kill the lights and fade away...

Fade away...

Take a look in my eyes and you will know the feeling
Inside I am wak but for the dawn I'm breathing
So breathe your life in my shades of grey
Or kill the lights and fade away...

Fade away...
