

## Lead Light

Julia Jacklin

I was once a Sunday kneeler  
When I saw the leadlight, fall from the pane  
I didn't know that the grass, was not only greener  
Upkeep is cheaper, when you embrace the rain  
So I jumped down to lay with my leadlight  
Under your spotlight, I lay with the shards  
I didn't know that the ground, is not only harder  
Oh but colder when you are not around

I love you my darling I do!  
But I can let possession make a fool of you  
I love you my darling I do!  
But I can't promise I'll be here to see this whole love through

So I ran with dreams to reach the skyline  
Straight up that incline, I ran towards the blue  
I didn't know that the sky, is not only wider  
Oh but clearer when I'm standing next to you

I love you my darling I do!  
But I can let possession make a fool of you  
I love you my darling I do!  
But I can't promise I'll be here to see this whole love through

Oh I believe in trust you see  
But don't you go and put your trust in me  
I cost more than you earn  
So tell me boy why didn't you ever learn?

I love you my darling I do!  
But I can let possession make a fool of you  
I love you my darling I do!  
But I can't promise I'll be here to see this whole love through
