

# To Perth, Before The Border Closes

Julia Jacklin

I loved it there  
That city held me  
Don't you know that  
Everything changes  
Inside the dream  
A case for wanting  
Don't you know that  
Everything changes  
Everything changes

When the time comes  
Will you get on that flight?  
I got a feeling I won't do it alone  
I got a feeling

But everything changes  
Everything changes  
Everything is changing  
Everything is changing

I loved it there  
That city held me  
I got a feeling I won't do it alone  
It's just a feeling though
