

# Try Your Luck

Julia Michaels

Every time I bite my lip  
You just lose your grip on reality  
So you say but you keep your distance  
So you say but you never lean in  
I fan my neck you break a sweat  
In some holding pattern type energy  
So you say but you're being timid  
So I say

I could be into it too  
Depending on you  
Hey hey hey

So if you wanna talk  
If you're lovestruck  
If you want the goal  
Then you gotta shoot the puck  
Oh baby  
You can come and try your luck

And if you wanna uhh  
Don't let it build up  
I'll untie your tongue  
If your feelings get stuck  
Oh baby  
You can come and try your luck

I'm feeling generous  
My plans are tentative  
Hey don't use your friend  
Like a personal representative  
Oh but then again  
If that's what it takes  
My eyes on you, your body too  
Assessing all the things you could offer me  
So you say if you got a minute  
So I say

I could be into it too  
Depending on you  
Hey hey hey

So if you wanna talk  
If you're lovestruck  
If you want the goal  
Then you gotta shoot the puck  
Oh baby  
You can come and try your luck

And if you wanna uhh  
Don't let it build up  
I'll untie your tongue  
If your feelings get stuck  
Oh baby  
You can come and try your luck

If you want to

Come try your luck  
Come try your luck  
Come try your luck  
(Come try your luck baby)

Come try your luck  
Come try your luck  
Come try your luck  
(Come try your luck baby)

If you want to  
Come try your luck  
Come try your luck  
Come try your luck  
(You can come and try your luck)

I want you to, yeah I want you to  
Yeah I want you to  
I want you to, yeah I want you to  
Yeah  
Yeah
