

Wrapped Around

Julia Michaels

You set the highest bar
The holy Mecca
You were smart you were strong you were sweet, the whole trifecta
You went and lead me on
And I let ya
Til I realized it was time to forget ya
Yeah

I was all about you
Now you're all about somebody else
Oh-oh, up all night without you
But I'm not up by myself

Well look at me now
Watch me wrap round, watch me wrap round somebody else now
Bet you're pissed how you're seein me out
Watch me wrap round somebody else now

Bet she can't tie a cherry stem with her tongue
Bet that after just one shot she gets drunk
All your boys talk shit say she's no fun
Are you second guessing yet
Have I won all these bets

I was all about you
Now you're all about somebody else
Oh-oh, up all night without you
But I'm not up by myself

Well look at me now
Watch me wrap round, watch me wrap round somebody else now
Bet you're pissed how you're seein me out
Watch me wrap round somebody else now

Leave it to me to put you in your place
A dose of your own medicine
How's that taste?
Look at me now
Watch me wrap round, watch me wrap round somebody else now

I was all about you
Now you're all about somebody else
Aye yeah, up all night without you
But I'm not up by myself

Well look at me now
Watch me wrap round, watch me wrap round somebody else now
Bet you're pissed how you're seein me out
Watch me wrap round somebody else now

Leave it to me to put you in your place
A dose of your own medicine
How's that taste?
Look at me now
Watch me wrap round, watch me wrap round somebody else now
