

Breathe It In

Julia Stone

In spite of what you might know
I'm scared of what you don't show me
Took a little too much that night
Said I never wish I felt this free
(Let's go dancing, let's light a fire, let's run for a while)
It's hard to see you fall like this
Watching it all from a birds-eye view
Was only trying, only trying

Just to breathe it in
I was only tryna breathe it in
I was only tryna be there, be there
Be there, be there

(And in spite of how I love you)
(It's not enough for me to forget)
And I wanted to explain
Why I always said the same thing

I was only trying, only trying to

Breathe it in
I was only tryna breathe it in
I was only tryna be there, be there
Be there, be there
Breathe it in
I was only tryna breathe it in
I was only tryna be there, be there
Be there, be there

This is all I know
There's a price for everything we take
(Everything we break)
To love to say
That I'm sorry I got lost
I was only trying, I was only trying to

Breathe it in
I was only tryna breathe it in
I was only tryna be there, be there
Be there, be there
Breathe it in
I was only tryna breathe it in
I was only tryna be there, be there
Be there, be there
