

Fire In Me

Julia Stone

I wanna feel it on my skin
I wanna wake that fire within (Come on!)
Light the fire in me (Come on!)
Light the fire, light the fire in me

Light the fire in me

I wanna taste it, I want the thrill
I'm gonna get it, you know that I will (Come on!)
Light the fire in me (Come on!)
Light the fire, light the fire in me

Light the fire in me

My trouble with all it hides
Slowly it burns, that's a lie
My trouble is loving the flames
Let get it so close that you'll pray

I wanna taste it, I want the thrill
I'm gonna get it, you know that I will (Come on!)
Light the fire in me (Come on!)
Light the fire, light the fire in me
