

# Chlorine

Julia Wolf

The wind blowing in is soft  
Hiding in my sleeves, I'm not much for talk  
I can't really text, we should take a walk  
Meet me out front, we could lose 'em all

You push me in the pool  
Chlorine on my clothes  
Taking a few laps and let it all go

Wring that shit out you'll be fine  
I just need some good advice  
Have your back if you have mine  
That's the way we living  
Wring that shit out you'll be fine  
Check your self from time to time  
Sit up straight and ease your spine  
That's the way we living  
That's the way we living

The nostalgia trips me up  
I miss being small like the first time  
Driving with no parents in the car  
Need to stop quitting before I start  
Got my flip flops cutting me up while I walk  
When I wanna tap out, you keep me on route  
Pop me in the socket whenever I'm out  
Loose grip we don't know what we doing it's  
All good 'cause one day we'll be booming

Push me in the pool, chlorine on my clothes  
Taking a few laps and let it all go

Wring that shit out you'll be fine  
I just need some good advice  
Have your back if you have mine  
That's the way we living  
Wring that shit out you'll be fine  
Check your self from time to time  
Sit up straight and ease your spine  
That's the way we living  
That's the way we living, yeah, (Yeah)

(Mmm)  
(Yeah, Yeah)  
(Mmm, Mmm)  
(Yeah)  
(Ooh, ooh, ooh, ooh)
