

Falling In Love

Julia Wolf

I deleted the original lyrics because
It was like a lovey song
Which (Right) was completely made up
So why am I writing about that?
It's stupid, I'm not gonna do that
So until it happens, I'm not writing about it
So dumb

Fuck fallin' in love, I'm way past it
Doesn't even matter for somebody like me
Fuck findin' the one, it won't happen
For somebody like me, for somebody like me

Lipstick on heavy, I don't wanna be kissed
Didn't come here to meet someone on a night like this
I say, "I just wanna dance," and you call me a bitch
You gotta be jokin', think it's 'bout time that I leave now

You should get a mood ring the way your fuckin' mood swings
Just so you can tell when you really shouldn't do things
Do things, actin' like I owe you
How the fuck I owe you? I don't even know you

Fuck fallin' in love, I'm way past it
Doesn't even matter for somebody like me
Fuck findin' the one, it won't happen
For somebody like me, for somebody like me

(Mmm, mmm)
(Mmm, mmm)

Said no thanks to the flask
Get your crew, get a cab
Ring of salt around my friends when we dance
Listen, understand
I love goin' to the club, but
I never get fucked up 'cause
These boys ruin the fun
If I wanna find love, I woulda came here with someone (Uh)

You should get a mood ring the way your fuckin' mood swings
Just so you can tell when you really shouldn't do things
Do things, actin' like I owe you
How the fuck I owe you? I don't even know you

Fuck fallin' in love, I'm way past it
Doesn't even matter for somebody like me
Fuck findin' the one, it won't happen
For somebody like me, for somebody like me

(Mmm, mmm)
(Mmm, mmm)

Fuck fallin' in love, I'm way past it (You should get a mood ring the way yo
ur fuckin' mood swings)
Doesn't even matter for somebody like me (Just so you can tell when you real
ly shouldn't do things)

Fuck findin' the one, it won't happen (You should get a mood ring the way yo
ur fuckin' mood swings)
For somebody like me, for somebody like me (Just so you can tell when you re
ally shouldn't do things)
(Mmm, mmm)
(Mmm, mmm)
