

Immortale

Julia Wolf

Siamo immortali durante la notte
Non puoi toccarci quando siamo coperti di luce, di luce
Balliamo via la nostra purezza
Getto la mia anima alle stelle
Sapranno sempre chi siamo
Sapranno sempre chi siamo
Getto la mia anima alle stelle

Throw my soul to the stars feel it split
'Bout to freeze time put a hex on a bitch
Two girls hands up high off the moment
Make a bad choice you could keep your judgment
Find a local dance bar call it a club
I said "I just want your perspective I'm not looking for drugs"
I got sin on my mind and I can't get enough
I take more risks when I start to feel bummed

This is pain
This is youth
This is all the hush-hush thoughts in your room
This is for the first time out with your crew
Getting fucked up find joy in the bruise
Eyes with the power to seduce
Hand me the aux we could cruise
Some nights I feel like I got nothing to lose

Some nights I feel like I got nothing to lose
