

Last Summer

Julia Wolf

You make me nervous
Don't feel like a person
It's happening all of the time
It's not on purpose but
I don't deserve this
I feel almost half alive

Hand over my mouth
I can't spit it out
Don't want you to see
The way you've changed me
Color from my cheeks
Laid out on the street
I don't care who sees

I can't get warm
Swimming under ice
I'm alone
Everything's dark and I'm cold
Last summer's over the current gets stronger
It won't let me go

I've been observing
The cracks in the surface
And watching what's falling through
Nothing is perfect
Hardly ever worth it
When it comes to you

I can't get warm
Swimming under ice
I'm alone
Everything's dark and I'm cold
Last summer's over the current gets stronger
It won't let me go

Let me go
Let me go
Let me go
No it no it no it won't
Let me go

Make me out to be
Something I'm not for you
No apologies every enough for you
Flip like a switch
When everyone leaves
The fits that you pitch
Cuz you don't believe

I can't get warm
Swimming under ice
I'm alone
Everything's dark and I'm cold
Last summer's over the current gets stronger
It won't let me go

Let me
Let me go
Let me
Just let me go
The current gets stronger it won't
Let me go
