

Loser

Julia Wolf

In the notes app on my phone to text you back
Like a loser
What can I say what can I say to make you stay
In the notes app on my phone to text you back
Like a loser (I would die)

I'm clay in your hands
Do me however you want
Your tongue your words
My religion top me off
Drinking spit spitting image
Wanna be you I'm livid
On my knees till you finish
I'd give my life

I love you
In all the ways that count
Take a cleaver to the heart and go to
Town
Town
Town

In the notes app on my phone to text you back
Like a loser
What can I say what can I say to make you stay
In the notes app on my phone to text you back
Like a loser (I would die)

Trace your initials to the roof of my mouth
Violent sobbing screaming praying
Burn on coals
Drag me round
Keep you warm oh god forgive me
I felt normal this morning
I'm chugging nyquil you hate me
Dig my nails into my palms
While you drown

I love you
In all the ways that count
Take a cleaver to the heart and go to
Town
Town
Town

(See what I'd do for you I would die) In the notes app on my phone to text you back
Like a loser (I I would die for you)
What can I say what can I say to make you stay
(See what I'd do for you) In the notes app on my phone to text you back
(Like a loser) I would die

I'm clay in your hands
Do me however you want
Your tongue your words
My religion top me off
Drinking spit spitting image

Wanna be you I'm livid
On my knees till you finish
I'd give my life
