

# Play Dead

Julia Wolf

I play dead  
When you come around buckle down  
So you know that we never gon'  
Try again  
Bite my tongue show you love I know either way I lose  
So I turn my head  
When I saw you out one night uptown I  
Wasn't in the mood to let you down  
Had to play dead so I won't forget

It was not love  
It was never love  
Yeah it's not love  
It was never love  
Yeah it's not love  
It was never love  
Yeah it's not love, yeah it's not love

I was chewing on my sweatshirt string  
Full of nerves  
You still said "I love you" first  
This shit's feeling so rehearsed, damn  
I think our small talk is making things worse  
You look to me when you can't see your worth

All our friends can't be friends now  
You go out I stay homebound  
Call me up to say you still feel proud  
See me out here executing everything we used to lay in bed and talk about

I play dead  
When you come around buckle down  
So you know that we never gon'  
Try again  
Bite my tongue show you love I know either way I lose  
So I turn my head  
When I saw you out one night uptown I  
Wasn't in the mood to let you down  
Had to play dead so I won't forget

It was not love  
It was never love  
Yeah it's not love  
It was never love  
Yeah it's not love  
It was never love  
Yeah it's not love, yeah it's not love

Would you curse me out?  
I'm tryna feel something  
Touching on your draws  
Like I'm blind to your hurting  
This is how we are and we both don't deserve it  
I'ma head out we should work out our burdens

I been kinda evil but you let it slide  
If I play dead will it give you life?

I been kinda evil but you let it slide  
If I play dead will it give you life?

I play dead  
When you come around buckle down  
So you know that we never gon'  
Try again  
Bite my tongue show you love I know either way I lose  
So I turn my head  
When I saw you out one night uptown I  
Wasn't in the mood to let you down  
Had to play dead so I won't forget

It was not love  
It was never love  
Yeah it's not love  
It was never love  
Yeah it's not love  
It was never love  
Yeah it's not love, yeah it's not love

I been kinda evil but you let it slide  
If I play dead will it give you life?  
I been kinda evil but you let it slide  
If I play dead will it give you life?
