

# Sunshine State

Julia Wolf

You say Florida hates you  
You always forgive it  
I always liked that about you  
Air full of water  
Mouth full of doom

So close to the "Ferris"  
The wheel that could show you  
There's more than the beach and the powerlines  
A mind full of wonder with nothing to do

So you pack up your car  
Leave your brothers in the rear view  
Say you'll be back but they  
Know it's just a half truth  
Torn between chasing a dream  
And missing your mom

Did you know my name?  
Like I've known yours  
Like I felt you  
Crushed by the sunshine state  
Yeah yeah  
Take your time I'll wait  
I can feel you  
All you've been through  
I know you'll find me anyway  
Yeah yeah

Now I don't go back to the old house  
The one we never talk about  
Up on the 2nd floor  
That's where I prayed for more  
Did you do the same thing?

It was a long time ago  
It still keeps me up at night  
If I had known you back then  
Would I have learned to step outside  
Myself and my habits?  
All my armour abandoned  
'Cause you're so forgiving  
You help me see past it

Did you know my name?  
Like I've known yours  
Like I felt you  
Crushed by the sunshine state  
Yeah yeah  
Take your time I'll wait  
I can feel you  
All you've been through  
I know you'll find me anyway  
Yeah yeah

Yeah I found you found you found you  
Yeah you found me found me found me

Right before the hurricane  
I found you anyways

Yeah you found me found me found me  
Yeah I found you found you found you  
Right before the hurricane  
I found you anyways
