Julia Wolf

Gotta sweet face but I only play villain  
Sugarcoat shit so you never taste venom  
I don't wanna do this to you  
I just can't help it  
They won't see me coming  
I'm the least expected  
Gotta sweet face but I only play villain  
If you come close don't you ever catch feelings  
I don't want to do this to you  
I just can't help it  
They won't see me coming  
I'm the least expected

Fuck a day job  
I ain't taking any days off since twenty-one  
Had a boyfriend  
But I don't ever compromise not once  
We just getting started it's the playoffs  
Got you locked up in the castle on my radar  
I'm not here for any truce fuck your pardons  
You just picking dead roses from the garden

You should pipe down  
If you don't got shit to say  
I'm a head out  
Watch me, I just turn and wave

Gotta sweet face but I only play villain  
Sugarcoat shit so you never taste venom  
I don't wanna do this to you  
I just can't help it  
They won't see me coming  
I'm the least expected  
Got a sweet face but I only play villain  
If you come close don't you ever catch feelings  
I don't wanna do this to you  
I just can't help it  
They won't see me coming  
I'm the least expected  
They don't see me coming  
I'm the least expected

You don't need canal street  
Rip me like a knockoff  
Wrong me once  
You gon' see what I'm made of  
I don't pay no mind  
You fell off the grind  
Now you want advice  
You should get in-line  
Pyrokinesis, my mind only fire  
You been all bark  
You can't pull these all-nighters  
Living in the dark  
Working on the vision  
Pop off so quick  
You think I tricked the system (Ohhh)

You should pipe down  
If you don't got shit to say  
I'm a head out  
Watch me, I just turn and wave

Gotta sweet face but I only play villain  
Sugarcoat shit so you never taste venom  
I don't wanna do this to you  
I just can't help it  
They won't see me coming  
I'm the least expected  
Gotta sweet face but I only play villain  
If you come close don't you ever catch feelings  
I don't want to do this to you  
I just can't help it  
They won't see me coming  
I'm the least expected

They don't see me coming  
I'm the least expected  
They don't see me coming
