

# Wishbone

Julia Wolf

I looked for you everywhere, it's embarrassing  
You watched the whole time from the driver's seat  
Being mean to my mom when she asked me things  
Make or breaking my day off a text, it was me versus sanity

Stripped down to my bra then I jumped  
Water lit me up with goosebumps  
Swam till my hands had no meaning  
Then waited on your text to fuck me up

Waited on your text to fuck me up

I want your deleted scenes  
But all you give is intros  
Let you break me one more time  
I wanna be your wishbone

Heard the girl that you're in love with is a fan  
Guess it checks out why you're running back again  
Now I'm so sore, I'm so sore, I'm so sore

Stripped down to my bra then I jumped  
Water lit me up with goosebumps  
Swam till my hands had no meaning  
Then waited on your text to fuck me up

Waited on your text to fuck me up

I want your deleted scenes  
But all you give is intros  
Let you break me one more time  
I wanna be your wishbone

Stripped down to my bra then I jumped  
Water lit me up with goosebumps  
Swam till my hands had no meaning  
Then waited on your text to fuck me up

Yeah  
I'm so sore, I'm so sore, I'm so sore  
I'm so sore, I'm so sore, I'm so sore
