

Head

Julian Cope

When she calls I'm always in the muddle
She's an ocean and I'm just a puddle
Never want to cause her any trouble
Do it now or causing me double

I can feel my head exposing now
I can feel my head exploding now

We went out dancing in the suburbs
In the gutter looking at the curb
Then my girl was skimming
Sent my head to spinning

I can feel my head exposing now

I can feel my head exploding now

When you kill something you believe in
You can hear its cries
You've got your antenna
Though you think you're no longer receiving

I can feel my head exposing now
An uncovered head exploding now
I can feel my head exposing now
Feel my head exploding now
Exploding now
Exploding now
Now
