

## Planet Ride

Julian Cope

All my spirit of compromise  
Has been mislaid by the depth in your eyes  
See me living in the middle of England  
Set my course for the deepest heavens  
Dress me up like a rocket ship  
And drag you screaming into my belly  
Railing, complaining

And I seal my girl inside  
'Cause she's my girl and I'm her planet ride  
Seal my girl inside  
'Cause she's my girl and I'm her planet ride

Well, I push you kicking to my airtight machine  
Fuel my love, I'm a big gas turbine  
Come and leave my big black city  
Big black city under western skies  
Railing, complaining

And I seal my girl inside  
'Cause she's my girl and I'm her planet ride  
Seal my girl inside

'Cause she's my girl and I'm her planet ride

She leads me out into the pastures green  
And wall-to-wall divine carpet under my feet  
I cup her chin in my hands and cry  
"I love you, sweeedeedee, I love you  
Come and hang 'em on the line next to mine"  
Well, I think my world is fading in fire  
Fading world in a burning sky  
Think my world is fading in fire  
I'm on fire in a burn, burn, burn, burn  
Railing, complaining

And I seal my girl inside  
'Cause she's my girl and I'm her planet ride  
Seal my girl inside  
'Cause she's my girl and I'm her planet ride  
Seal my girl inside  
She's my girl and I'm her planet ride  
My planet ride
