

# Don't Wake Me Up

Julian Lennon

I've been taking my time  
Sipping water from wine  
Life just feels so divine, I've got you on my mind  
Please don't wake me, be kind  
Don't wake me up in the morning  
Because I'm dreaming of you  
'Cause dream can't last forever  
'Cause dream can't all be true  
'Cause I can feel I'm falling  
I've been waiting to see  
What will happen to me  
I just want to be free, just to dream reality  
Please, won't you let me be?  
Don't wake me up in the morning  
Because I'm dreaming of you  
Don't wake me up in the morning  
Flying into the blue  
'Cause dream can't last forever  
'Cause dream can't all be true  
'Cause I can feel I'm falling  
Can you feel my heart?  
(What a wonderful world, what a wonderful view)  
Don't want a broken heart  
([Incomprehensible])  
I won't fall apart  
([Incomprehensible])  
From the very start  
(All I need is love and we'll make it through)  
Don't wake me up in the morning  
Because I'm dreaming of you  
Don't wake me up in the morning  
Flying into the blue  
'Cause dream can't last forever  
'Cause dream can't all be true  
'Cause I can feel I'm falling
