

Lucy

Julian Lennon

Here she comes
With her girlfriends
Walking in circles
making their way
hand in hand

When she plays
with her girlfriends
she's one in a million
coming again and again

(Do do doo, do do do, etc.)

We still love you, Lucy
you know I do
We still love you Lucy
I know I do

When she laughs
with her girlfriends
you know its a true love
a true love that's so innocent

when she smiles
with her girlfriends
i'll always remember
the smile that I'll never forget

(Do do doo, do do do, etc.)

We still love you, Lucy
you know I do
We still love you Lucy
I know I do
(repeat)

Don't let the world be cruel
Because I love you
We'll see you soon

(Do do doo, do do do, etc.) (X2)

we're not the same
and people change
we're not the change
so find yourself
find yourself

We still love you, Lucy
you know I do
We still love you Lucy
I know I do
(repeat X5)

We still love you Lucy

You know I do
