

## All i know

Julian Marley

All I know  
if you keep on taking water from the well  
it will all dry up  
and you have up having nothing for yourself.

All I know  
if you keep on taking water from the well  
it will all dry up  
and you have up having nothing for yourself.

Your making a fool of yourself  
thinking money can buy you health.  
It's only a greedy heart  
loves to finish but never start.  
You use and abuse everyone around you  
taking them for granted  
feeling like the world is against you  
so you take advantage.

So...All I know  
if you keep on taking water from the well  
it will all dry up  
and you have up having nothing for yourself.

Your head is gone so far  
almost forgotten who you are  
and your never satisfied  
you can't see cause your full of pride  
and one day you'll be played  
by your own works you will be played  
one more thing don't say you never heard  
play with fire you will get burned.

So...All I know  
if you keep on taking water from the well  
it will all dry up  
and you have up having nothing for yourself.  
All I know  
if you keep on taking water from the well  
it will all dry up  
and you have up having nothing for yourself.
