

Father's Place

Julian Marley

Come with me, To my father's place
Where we can be in sweet harmony
Come with me to my father's place
Where unity becomes a sweet reality
Sweet melody

Sometimes you'll find yourself drifting
What you gonna do
To divert the problem now
In times of troubles where do you go
Cause there only one place
That I know now

Come with me, To my father's place
Where we can be in sweet harmony
Come with me to my father's place
Where unity becomes a sweet reality
Sweet melody

Yes I know deep down inside your soul
There's a little voice crying out to you
I know you should want to listen
Find out what you've been missing yeah

Come with me, To my father's place
Where we can be in sweet harmony
Come with me to my father's place
Where unity becomes a sweet reality
Sweet melody

Searching so long
Getting weary but we're staying strong
And all along the way
Jah will guide us each and everyday

Sometimes you'll find yourself drifting
What you gonna do To divert the system
In times of trouble, Where do you go
Cause there's only place that now

Come with me, To my father's place
Where we can be in sweet harmony
Come with me to my father's place
Where unity becomes a sweet reality
Sweet melody
