

Just In Time

Julian Marley

Just in time, just in time
Just in time, just in time

Jah gives us inspiration in times of desperation
He is our every, everythin', the King of life He surely is
All the way from Genesis, created us in perfectness
Gave light unto the darkness ordained

When roads before us crumbled
He made us not to stumble
But lead us though the jungle away

Just in time, just in time
Just in time, just in time

Just in time, just in time
Just in time, just in time

We live in revelation, in the midst of temptation
Jah we cry for Your protection, oh, keep us from confliction

His love for us will never end, our Father and forever Friend
His works are so omnipotent, always
He swept us up from danger, I'll never be a stranger
But always a remainder of faith

Just in time, just in time
Just in time, just in time

Just in time, just in time
Just in time, just in time
