

Close Your Eyes

Juliana Hatfield

I can't get you out of my mind
Lately you've been so low
You were a friend of mine
And baby you already know
If you'd ask I would try to stop all the rain
And lightning and heat waves
Your world's not over yet

Don't believe in bad dreams
Don't let the dark side bring you down
It's only a dream
Don't be afraid to fall asleep

Close your eyes
Close your eyes

I can see it on your face
Somebody let you down
You're all alone again
You're stuck in this small town
Scary monsters
They may haunt you in your times of sadness
If you could just let her go

Don't believe in bad dreams
Don't let the darkness make you cry
It's only a dream
Don't be afraid to fall asleep

Close your eyes
Close your eyes

Don't believe in bad dreams
Don't let the darkness make you cry
It's only a dream
Don't be afraid to fall asleep

Close your eyes
Close your eyes
Close your eyes
