

## When You Loved Me

Juliana Hatfield

When you loved me  
I was good enough  
When you loved me  
Music woke me up

But now the silence  
Is suffocating  
Did I deserve this?  
Did I do a bad thing?

When you loved me  
Every single day  
Was a blessing  
Time would fly away

But now every minute  
Feels like an hour  
Wishing the day would end  
Inside the prison in my head

But then you turned me  
Into a fool  
Watching you walk away  
Into another world

When you loved me  
I was happy  
When you loved me  
Never lonely

But then you turned me  
Into a fool  
Watching you walk away  
Into another world  
When you loved me, when you loved me  
When you loved me, when you loved me
