

Chasing The Light

Julie Anne San Jose

Somewhere along
Those wide endless roads
I'm walking alone
Don't know which way to go

But one day
The one will lead me home
In another world
I'll call my own

Chasing the light
To so lonely people
Wishing on the same bright star
Holding on and never giving up
The chance to heal each other's
Broken heart

Somehow I know
In the break of dawn
You hear my call
And you come along

Dreaming together as one soul
Hoping that tomorrow
Love will grow

Chasing the light
To so lonely people
Wishing on the same bright star
Holding on and never giving up
The chance to heal each other's
Broken heart

Dreaming together as one soul
Hoping that tomorrow
Love will grow

Chasing the light
To so lonely people
Wishing on the same bright star
Holding on and never giving up
The chance to heal each other's
Broken heart

Chasing the light
To so lonely people
Wishing on the same bright star
Holding on and never giving up
The chance to heal each other's
Broken heart
