

Everybody Hurts

Julie Anne San Jose

It's been 30 days and 30 nights
Since I heard your voice, saw your smile
They say
This is how the story goes

Wish I would've told you to slow down
Just wanna hold you one more time
And I
Wish that I could let you know

That it's hard to see the truth
When it doesn't matter what you do
You keep trying but it's just not up to you

I know that you wanna save the world
Turn inside out to make it work
But everybody hurts sometimes
Everybody hurts sometimes
You don't have to carry everyone
You don't have to lose to love someone
'Cause everybody hurts sometimes
Everybody hurts sometimes

We've had ups and downs 'cause that is Life
But in the end what really counts is
Love
Wish that I could make you see

That it's alright, it's okay
'Cause the sun is rising anyway
Keep your head up, you will find a better day

I know that you wanna save the world
Turn inside out to make it work
But everybody hurts sometimes
Everybody hurts sometimes
You don't have to carry everyone
You don't have to lose to love someone
'Cause everybody hurts sometimes
Everybody hurts sometimes

Look at yourself in the mirror
And try to be kind to yourself
You're doing everything you can

I know that you wanna save the world
Turn inside out to make it work
But everybody hurts sometimes
Everybody hurts sometimes
You don't have to carry everyone
You don't have to lose to love someone
'Cause everybody hurts sometimes
Everybody hurts sometimes
