

## Just Stay

Julie Anne San Jose

You're up before me  
Trying to look away from you  
And another way I feel  
But you will thank me  
Bringing me back to life  
Making me feel alive again

Hey, are you staying?  
Or are you just a wanderer?  
Just stay with me for a day or two  
Until my heart is mended  
Don't go away just yet

I can't hide it  
Just too afraid, I am  
That you were just a shooting star  
That I can't help it  
You warned me with the way you smiled  
And touched me with the words you say to me

Hey, are you staying?  
Or are you just a wanderer?  
Just stay with me for a day or two  
Until my heart is mended  
Don't go away just yet

Just stay with me for a moment  
Boy, until the night is over  
Don't go away just yet

Be my angel and wait till my heart has healed  
Whoa-oh-oh-oh-oh  
Be my angel and wait till my heart has healed  
Whoa-oh-oh-oh-oh  
Until the night is over  
Don't go away just yet  
Be my angel and wait till my heart has healed
