

## Ways

Julie Anne San Jose

You're I've been looking for  
I see you walking through my door  
Day turns into night  
And the night gets colder  
Just as my hands are  
Without yours to hold them  
Breathing in for the first time  
You have your ways and I have mine

I know very well  
Right in between heaven and hell  
We belong and you know I am here

When the sun goes down  
And the moon rises  
With our hearts on fire  
In your arms I found  
My way back home, hoo

Ooooooh, baby I love you  
Ooooooh, baby I love you

How long have we waited  
For these walls to crumble and fall  
We both know how far  
We've come to feel again  
Swear I'll never let you go  
I will always hold you close  
Lay down your burdens  
'Cause I am here

Ooooooh, baby I love you  
Ooooooh, baby I love you  
Ooooooh, baby I love you

When the sun goes down  
And the moon rises
