Julie Bergan

If I am a question, leave me unanswered
Don't need to know just yet
Bend me over backwards, make my heart beat faster
Lie to me, say it won't end

I'm used to hard lessons, why don't you teach me
Something I've never felt
I can keep emotions buried in the ocean
We can keep playing pretend

From floating to sinking
And flying to falling
I'm off the deep end for you

(I dive)

I could drown in your eyes
You know they say that looks can kill
But I don't mind a midnight swim
So watch me dive
Dive
Dive

I could drown in your eyes
So play me like a violin
Cause I don't mind a midnight swim
Just watch me dive
Dive
Dive

Just a lil harder, making me water
When you crash into me
I'mma put my hands high, you can do what you like
Make me forget how to breathe

From floating to sinking
And flying to falling
I'm off the deep end for you

(I dive)

I could drown in your eyes
You know they say that looks can kill
But I don't mind a midnight swim
So watch me dive
Dive
Dive

I could drown in your eyes
So play me like a violin
Cause I don't mind a midnight swim
Just watch me dive
Dive
Dive

Dive
Dive

Dive

Just watch me dive
