

# One Touch

Julie Bergan

I wanna give you all of me  
I'll show you things you've never seen  
Go to a place we've never been  
Never been, huh, n-never been

They say a heart can break in two  
And love is scary when it's new  
But no one gets me like you do  
Like you do, l-l-like you do

Feel me  
I've never felt this in my body  
I've never felt this way with

One touch  
Never wanted anything so much  
But we can take our time, baby, don't rush  
I will wait forever for you, for you  
No air  
Nothing feels the same when you're not here  
They can say whatever, I don't care  
I will wait forever for you, for you

I'll take the highs, I'll take the lows  
And if you doubt me let me know  
I'll give you reasons not to go  
Not to go, oh, oh, not to go

Point out the stars that are aligned  
And take you dancing in the night  
Show you forever started in love  
Forever, huh, huh, forever

One touch  
Never wanted anything so much  
But we can take our time, baby, don't rush  
I will wait forever for you, for you  
No air  
Nothing feels the same when you're not here  
They can say whatever, I don't care  
I will wait forever for you, for you

I wanna give you all of me  
Go to a place we've never been

One touch  
Never wanted anything so much  
But we can take our time, baby, don't rush  
I will wait forever for you, for you  
No air  
Nothing feels the same when you're not here  
They can say whatever, I don't care  
I will wait forever for you, for you
