'Cause we won't regret it tomorrow
So we keep on calling each other after a bottle

Don't need you here, but when you're near
I can't let go of us, I can't let go of us
Don't need your call, but when we talk
I can't let go of us, I can't let go of us

I ain't yours and you, you ain't mine
You do someone else, I don't mine
We can't stay like this, undefined, unrefined
We only wanted to cuddle
But we always fall for each other after a bottle
We say more than we should to each other
And then we forget it tomorrow, uh
'Cause we always fall for each other after a bottle

Don't need you here, but when you're near
I can't let go of us, I can't let go of us
Don't need your call, but when we talk
I can't let go of us, I can't let go of us
