

# Younger

Julie Bergan

I'm feeling the night, the timing is right  
We're about to make memories that won't die  
Can't get enough, give me more of your love  
'Cause nothing can stop this now

Who said that the sky is the limit?  
When there are footsteps on the moon  
I would give up all my tomorrows  
For this moment now with you

We're not getting any younger  
Scream, shout, letting it all out  
Fire up this show  
We're not getting any younger  
No, we're not getting any younger

I feel the heat, it's burning my feet  
I'mma move to the beat tonight  
Just walk the walk, talk the talk  
'Cause nothing can stop us now

Who said that the sky is the limit?  
When there are footsteps on the moon  
I would give up all my tomorrows  
For this moment now with you

We're not getting any younger  
Scream, shout, letting it all out  
Fire up this show  
We're not getting any younger  
No, we're not getting any younger

Do your thing and I'll walk with you  
Do your thing and I'll walk with you  
Do your thing and I'll walk with you  
Do your thing and I'll walk with you

We're not getting any younger  
Scream, shout, letting it all out  
Fire up this show

We're not getting any younger  
Scream, shout, letting it all out  
Fire up this show  
We're not getting any younger  
No, we're not getting any younger  
No, we're not getting any younger  
No, we're not getting any younger
