

## They Wanted Me to Say

Julie Doiron

They told me all of the things they wanted me to say  
That I would stay forever, yes, that I would stay  
They told me all of the things they wanted me to say  
That they were the only one, yeah, they were the only one  
They told me all of the things they wanted me to say  
That I love them more than anything, that I love them that way

They told me all of the things they wanted me to say  
But I don't want to say these things and I don't want to stay  
No, I don't want to say these things and I don't want to stay  
No, I don't want to say these things and I don't want to stay
