

# Anarchy

Juliet Simms

You and me  
We are like anarchy  
For the whole world to see  
See who we are

What we believe  
Is not what they believe  
And we can only be  
Be who we are

And that's why I say

You and me  
We are like anarchy  
Fuck your authority  
I'll make my own  
If you fight me  
You're fighting a whole army  
I make no apologies  
If you push me too far  
Who the hell do you think you are?

Society  
Says that we're all just freaks  
And that the friends we keep  
Are broken at heart

Oh...  
We don't say the right things  
Don't look the right way  
Treat us like trash  
Wanna throw us away  
But we're marching back  
With our boots on the ground  
We're coming for kings and the queens and their crowns

You and me  
We are like anarchy  
Fuck your authority  
I'll make my own  
If you fight me  
You're fighting a whole army  
I make no apologies  
If you push me too far  
Who the hell do you think you are?

Ladies and gentlemen, boys and girls  
If you can hear my voice  
Then listen close 'cause the powers that be  
Don't want you to know you have a choice  
They want you to think their's is the only way  
The only path to what's right  
But I say fuck them  
The revolution begins tonight

You and me  
We can only be who we are

And that's why I say  
You and me  
We're like anarchy  
Fuck authority  
No apologies  
You and me  
We can only be  
Who we are

You and me  
We are like anarchy  
Fuck your authority  
If you push me too far  
Who the hell do you think you are?
