

Burn With Me

Juliet Simms

Sparks will fly
We can burn this house down
Say goodnight
To everything we are now

Kiss me, kill me
Just give in and let go
Let's live this life
Like there's no tomorrow

Burn with me
One last time
I will leave our ashes, ambers in the fire
Burn with me
Smoke will rise
Let the flames burn higher, walk into the fire
Burn with me

Oh alright
I'm waiting on an answer
Save this life
For now is all that matters

Kiss me, kill me
Tell me all your secrets
Whisper it to me
I promise that I'll keep it

And they'll burn with me
One last time
I will leave our ashes, ambers in the fire
Burn with me
Smoke will rise
Let the flames burn higher, walk into the fire
Burn with me

Its my heart that's beating down your bedroom door
Its the way you like to keep me coming back for more
And you say "let's go down in flames"

Burn with me
One last time
I will leave our ashes, ambers in the fire

Burn with me
One last time
I will leave our ashes, ambers in the fire
Burn with me
Smoke will rise
Let the flames burn higher, walk into the fire
Burn with me
Burn with me

Burn with me
Smoke will rise
Let the flames burn higher, walk into the fire
Burn with me

Let's live this life
Like there's no tomorrow
