

I Know It's Over

Julio Iglesias

I know it's over, you said it's over for me and you
Just for a moment my heart surrendered to someone new
How can you leave me when you still need me inside your life
Just let me love you with one more chance to, I'll make it right
Oh, it's so crazy, why can't you see, don't make our love just
a memory
I know it's over, for you it's over but not for me

I know it's over, you said it's over for me and you
Just for a moment my heart surrendered to someone new
How can you leave me when you still need me inside your life
Just let me love you with one more chance to, I'll make it right
Oh, it's so crazy, why can't you see, don't make our love just
a memory
I know it's over, for you it's over but not for me

For you it's over, I know it's over
For you it's over, I know it's over
For you it's over, I know it's over
For you it's over, I know it's over
