

# No Relation

Jully Black

(It's official)

Took up all of my patience  
Put that ass on probation  
No matter the occasion  
Ain't got no more relation with you (With you)  
Ain't got no more relation with you (With you)  
Ain't got no relation with you, oh, oh  
With you  
Ain't got no more relations, I'm through

Stay out my business, I, I, I  
Stay out my business  
You never paid shit  
Just like I waste mine, gonna go waste it  
You need to face it  
You see them cases, I'm through

Why you, why you, why you think I'm through?  
Why you, why you, why you blow my phone to come through?  
When I'm tryin' to lose you  
Why you, why you, why you, why you—

Took up all of my patience  
Put that ass on probation  
No matter the occasion  
Ain't got no more relation with you (With you)  
Ain't got no more relation with you (With you)  
Ain't got no relation with you, oh, oh  
With you  
Ain't got no more relations, I'm through (Bye, bye, bye)  
Ain't got no more relations, I'm through

No more flippin' doors for you  
No more fallin' through for you  
No more island fool for you  
Don't care what you like, you are the type  
Don't care what you like, you think you're bright

I think I'm through

Why you, why you, why you think I'm through?  
Why you, why you, why you blow my phone to come through?  
When I'm tryin' to lose you  
Why you, why you, why you, why you—

Took up all of my patience  
Put that ass on probation  
No matter the occasion  
Ain't got no more relation with you (With you)  
Ain't got no more relation with you (With you)  
Ain't got no relation with you, oh, oh  
With you  
Ain't got no more relations, I'm through (Bye, bye, bye)  
Ain't got no more relations, I'm through

Why you, why you, why you think I'm through?

Why you, why you, why you blow my phone to come through?  
When I'm tryin' to lose you  
Why you, why you, why you, why you—

Baby, I know what I'm worth  
And I know what you deserve and that ain't me (Yeah, yeah, yeah)  
Baby, I know that, love, it hurts  
We all been hurt by somebody (Yeah, yeah, yeah)  
Baby, I know what I'm worth  
And I know what you deserve and that ain't me (Yeah, yeah, yeah)  
Baby, I know that, love, it hurts  
We all been hurt by somebody
