

Blue Eyes

July For Kings

Your color is purple
Your food is Chinese
You're a sucker for buying one and getting one free
Thursdays at 8:00
You watch your TV shows
CSI and Friends
These things I know

But what makes your eyes so blue?
Is it something inside of you?
What makes you beautiful?
I wish I knew
Is it your light shining through?

You're thinking about law school
You haven't made your mind up yet
You're thinking about dinner
You're counting up the hours of sleep that you'll get
You want to move somewhere
Where it doesn't rain or snow
You wish you were a dancer
You think Bono's got the answer
You're a democrat
These things I know

But what makes your eyes so blue?
Is it something inside of you?
What makes you beautiful?
I wish I knew
But what makes your eyes so blue?
Is it something inside of you?
What makes you beautiful?
Is it your light shining through?

I know just what makes you laugh
And what makes you cry
I know when you're sad you don't have to say why
I know what you love
I know what you don't
I know when you will when you might when you won't
But what makes you you?
What makes your eyes blue?

What makes your eyes so blue?
Is it something inside of you?
What makes you so beautiful?
I wish I knew
But what makes your eyes so blue?
Is it something inside of you?
What makes you so beautiful?
I wish I knew

What makes your eyes so blue?
Is it something inside of you
