Float Away

July For Kings

I could float away
I could disappear
I could hang my head
For at least another year

I could give up now
It could be today
I can join the navy
And piss it all away

I'm not saying it ever could be like it used to be
But I remember a time when you liked to pretend for me

Well I don't care if you believe
In unicorn horses and gravity
In North and South and wrong and right
In the Neverland, Lost Boys and Jesus Christ
In UFO's in the USA
And in a government
That killed JFK
But don't you stop believing in me
Don't you stop believing in me
I could float away

I know you might say
I make too much sense
This empty room and my empty heart
Is all the evidence
And no one wants to hear
My point of view
You keep saying things like that
And I'll believe it too

I'm not saying it ever could be like it used to be
But I remember a time when you liked to pretend for me

I don't care if you believe
In unicorn horses and gravity
In North and South and wrong and right
In the Neverland, Lost Boys and Jesus Christ
In UFO's in the USA
And in a government
That killed JFK
But don't you stop believing in me
Don't you stop believing in me
I could float away
I could float away
I could float away
I could float away

I don't care if you believe
In unicorn horses and gravity
In north and south and wrong and right
In the Neverland, Lost Boys and Jesus Christ
In UFO's in the USA
And in a government
That killed JFK

But don't you stop believing in me
Don't you stop believing in me
Don't you stop believing in me
I could float away
I could float away
I could float away
