

# Good Enough

July Talk

It's too soon to tell  
When you will exhale  
And know you're good enough  
Alone is just a word  
For it won't happen fast  
Everyone knows that

Just try to drink it up  
Make like you still give a fuck

I hurt you 'cause I love you most  
Tantrum while you hold me close  
And I know you know  
This is how it always goes

I'm lightning, I'm thunder  
Can I get a little closer?  
Chaos and recover  
Can I get a little closer?

No one is at fault  
Unknown was the cause  
If you can call it that  
Unknown is just a word  
For couldn't get a grasp  
Everyone knows that

Come on, baby, suck it up  
Don't you know you're good enough?

I hurt you 'cause I love you most  
Tantrum while you hold me close  
And I know you know  
This is how it always goes

I'm lightning, I'm thunder  
Can I get a little closer?  
Chaos and recover  
Can I get a little closer?  
I'm lightning, I'm thunder  
Can I get a little closer?  
Chaos and recover  
Can I get a little closer?

If you could take it back  
Cut a little slack  
And back away slowly  
If only I had known  
Was there something I could've said  
To make you back away slowly?

I hurt you 'cause I love you most  
Tantrum while you hold me close  
And I know you know  
This is how it always goes

I'm lightning, I'm thunder

Can I get a little closer?  
Chaos and recover  
Can I get a little closer?  
I'm lightning, I'm thunder  
Can I get a little closer?  
Chaos and recover  
Can I get a little closer?

I need you most  
I'm lightning, I'm thunder  
Can I get a little closer?  
I'm lightning, I'm thunder  
Can I get a little closer?  
Chaos and recover  
I need  
I need
