

Identical Love

July Talk

I want to be changed
I want to be rearranged
My love for you eternal
I trust an open flame
I want to be transformed
I want to be transformed

The evening heat surrounded us
It blossomed from the cup
The only one of their kind
Welcome inside

As we try, to define
Identical love
As we try, to define
Identical love
In amidst, the eclipse
Identical love

I want to be changed
I want to be rearranged
Our love can withstand thunder
We are safe in hail and rain
But I want be transformed
I want to be transformed

As we try, to define
Identical love
As we try, to define
Identical love
In amidst, the eclipse
Identical love
In amidst, the eclipse
Identical love

As we try, to define
Identical love
As we try, to define
Identical love
In amidst, the eclipse
Identical love
In amidst, the eclipse
Identical love
