

Strange Habit

July Talk

Love's gone but we're teasing now
You don't forget that kind of thing
I grab your hand because its easy
And I miss that trouble that you bring

For all the wrong reasons
For all the wrong reasons
Show up at your door
For all the wrong reasons
For all the wrong reasons
Clothes fall to the floor

Here we go again, we're falling
(And now we're going through the motions)
Back into these strange old habits
(We're going through the motions)
Here we go again, we're falling
(And now we're going through the motions)
Back into these strange old habits

I've still got a bad need for
Your barely there voice
Telling me secrets
In the quiet of the night

For all the wrong reasons
For all the wrong reasons
Always in my head
For all the wrong reasons
For all the wrong reasons

For all the wrong reasons
For all the wrong reasons

Here we go again
Here we go again, we're falling
(And now we're going through the motions)
Back into these strange old habits
(And now we're going through the motions)
Here we go again with falling
(And now we're going through the motions)
Back into these strange old habits
