

Fly-y, fly-y,
Fly-y, fly-y, fly

It's like I woke up and my day belongs
And nothing goes right hall of fame
It's like a simple song and
I can't seem to get it straight

But I'm in the world premier
And I just can't get through the lines
And everything I touch goes wrong,
No matter what I try

Fly away above the clouds up in the sky
Oh why, oh why
So I don't worry 'bout the little things in life
'Cause it's my time to fly
And I know they cannot hold me down
Fly-y, fly-y,
'Cause they cannot hold me down,
Fly-y, fly-y, fly-y

Some times are crazy in the world
It's ever weirder than it sounds
The world is my missed time
Things are easier I've found

All the world's stage
I've just got the starring role
The mountain mass in front of me
Seems like a little stone

Fly away above the clouds up in the sky
Oh why, oh why
So I don't worry 'bout the little things in life
Cause it's my time to fly tonight

I know sometimes it's hard to walk
When being knocked around

But circumstances, state of mind
Don't live life on the ground

I just want to
Fly away above the clouds up in the sky
Oh why, oh why
So I don't worry 'bout the little things in life
Cause it's my time to fly tonight

It's my time, my time to fly

Fly away above the clouds up in the sky
Oh why, oh why
So I don't worry 'bout the little things in life
Cause it's my time to fly tonight and
I know they cannot hold me down
Fly-y, fly-y,

'Cause they cannot hold me down,
Fly-y, fly-y, fly-y
