

# Good Time

## June's Diary

I told my girls  
I would never lose  
Myself to another boy  
After I left you

See you standing over there  
And I know I'm looking real good  
Hell yeah I'm feeling myself  
Glowin' like every queen should  
Your eyes saying oh my god  
Really messed up real bad  
I could not get you back  
But I ain't got time for you

We vibe, dance, drink, we laugh  
We do whatever as long as we have a good time  
Good time  
Good time  
Do whatever as long as we have a good time  
Good time  
Good time  
Do whatever as long as we have a good time  
Get in the car right now  
Everywhere we go they follow  
The way we up right now  
Ain't coming down till tomorrow  
Good time  
Good time  
Do whatever as long as we have a good time

Now I'm able to say I'm finally free  
You lost your hold on me  
And I'm right where I wanna be

Moving on like a steam train  
Maybe now you'll feel my pain  
Boy, you shoulda treated me better  
I'm over here doing whatever  
Killing the game boom bang bang  
No stopping, you insane  
The old me would go back  
But I ain't got time for you

We vibe, dance, drink, we laugh  
We do whatever as long as we have a good time  
Good time  
Good time  
Do whatever as long as we have a good time  
Good time  
Good time  
Do whatever as long as we have a good time  
Get in the car right now  
Everywhere we go they follow  
On our way up right now  
Ain't coming down till tomorrow  
Good time  
Good time

Do whatever as long as we have a good time
