

My You

Jung Kook

Summer has already spread in the air
Breeze is already blowing
The last cold snap is going out

The days were getting longer and longer
But my days were still going on and on and on
I got wet in the sun shower and looked up at the night sky

It was quite a lonely night
In the blink of an eye
The dark faded out
Blooming under the sunlight
Memories with me and you

All these lights are colored in by you
All these times are precious due to you
Four seasons have passed with you
Four scents were left 'cause of you

All the reasons why I can laugh out
All the reasons why I sing this song
Thankful to be by your side now
I'll try to shine brighter than now

I'll try to shine brighter than now

Will it disappear?
Is this perhaps a dream?
I toss and turn in bed
And fall asleep again
Can it be forever, my deeply bitter heart
I try to console it and get stuck in the dark light

A quiet lonely night
Before I know it, the dark clouds separated
Under a line of light
It's engraved, the warm you left behind

All the lights covers me
And my time gets perfected
After four seasons again
Again thicker once more

All the reason I can laugh out
All the reason I sing this song
I'm thankful for being next to you
I'll try to shine more brightly

On a starry night
Hope my you sleep tight
Shining purple light
Thankful to be by your side now

On a starry night
Hope my you sleep tight
Shining purple light
I'm thankful for being next to you
