

# Please Don't Change

Jung Kook

Lights on camera  
Fast life stamina  
Nowhere to hide on a satellite  
Life on camera

Even if your stars align and you're light years away  
I'll be the same  
I'll be the same  
Tell me if my stars align and I'm light years away  
Will you do the same?

Could you, could you please  
Please don't change  
Please  
Please don't change

'Cause I love you, yeah, I love you  
Oh, I love you, love the way you are  
Please  
Please don't change

Life off camera  
Mind's gone traveler  
No more sign on a cellular  
Lives off camera

Even if your stars collide and you're light years away  
I'll be the same  
I'll be the same  
Tell me if my stars collide and I'm light years away  
Will you do the same?

Could you, could you please  
Please don't change  
Please  
Please don't change

'Cause I love you, yeah, I love you  
Oh, I love you, love the way you are  
Please  
Please don't change
