이제 나는 배를 타고
가서 보고 싶은 곳을
찾아볼까
그리고
그곳에서
그대를 만날까

그대도 나를
찾아볼까

우리는 이제
함께
가서
보고 싶은 곳을
찾아볼까

On a sleepless night
I knew there would be no end
But I started a long journey
At a place I can't see anyone
Without any scent
Be my light

Countless memories
That looked like faraway dreams are passing by

Outside the familiar orbit
Into the black other side
If I keep going without looking back
Some day, will I be able to see you?
There's so much I want to say

Sometimes, when I get lonely
I sing my songs out loud
Hoping it'll reach you

Maybe this journey of mine
Is to wander through your universe

Outside the familiar orbit
Into the black other side
If I keep going without looking back
Some day, will I be able to see you?
There's so much I want to say

With the seasons that change however they want
Inside my anxious shadow
Again today, I'm looking for you

After a long time
Even if I lose all my memories
I can recognize you
When your gravity that's deeply engraved in my heart
Pulls me

I'll go to you like a shooting star
The end of my journey is you
